2. PLANNING AND ZONING

CITY. If your prospective business location is inside a city limit or planning region, you will need to contact the city zoning or codes department. The city telephone numbers are listed above.

SUMNER COUNTY. All prospective businesses in the rural areas of the county should contact the Construction & Development Department located at 355 N. Belvedere Dr. #202, (615) 452-1467. Certain home based businesses operated within the residential structure may qualify as a "home occupation" business, however any business that is operated in a detached or accessory structure would not qualify as a home occupation business. In most cases a small business owner, if current zoning allows for that type of business operation, would not need to re-zone his property. Instead the owner of the property could appear before the Sumner County Board of Zoning Appeals. Other business operations may need to seek a re-zoning based on the size of the operation or the use. For more information, or to discuss which course of action you would need to seek, contact the Construction & Development Department at (615) 452-1467.
